COMBINED DECLARATION AND POWER OF ATTORNEY

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are as stated below next to my name.

I believe the inventor(s) named below to be the original and first inventor(s) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

"Method and Apparatus for Securing a Door Piston to a Door Jamb"
(Invention Title)

the specification of which:

☐ is filed concurrently herewith.

OR

☒ was filed as U.S. Application No. 10/507,233 on 09/09/2004 (mm/dd/yyyy) and was amended on _____ (mm/dd/yyyy).
(if applicable)

OR

☐ was filed as PCT International Application No. _____ on _____ (mm/dd/yyyy) and was amended under PCT Article 19 on _____ (mm/dd/yyyy) and/or PCT Article 34 on _____ (mm/dd/yyyy).
(if applicable)

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claim(s), as amended by any amendment referred to above.

That, as to the invention of the present application which is common to the earlier application(s) as hereinafter defined, I do not know and do not believe that the invention was ever known or used in the United States before my invention thereof; or patented or described in any printed publication in any country any time by others before my invention or by anyone more than one year prior to the earlier application(s); or in public use or on sale in the United States by anyone more than one year prior to the earlier application(s) in the United States.

That, as to the invention of the present application which is not common to the earlier application(s), I do not know and do not believe that the invention was ever known or used in the United States before my invention thereof; or patented or described in any printed publication in any country anytime by others before my invention or by anyone more than one year prior to the present application; or in public use or on sale in the United States by anyone more than one year prior to the present application in the United States.

That, as to the invention of the present application which is common to the earlier application(s), I do not know and do not believe that the invention has been patented or caused to be patented, or was the subject of an inventor's certificate, by me or my legal representatives or assigns in any country foreign to the United States on a patent application or inventor's certificate filed more than twelve months, or six months for a design application, prior to the filing date in the United States of the earlier application(s).

That, as to the invention of the present application which is not common to the earlier application(s), I do not know and do not believe that the invention has been patented or caused to be patented, or was the subject of an inventor's certificate, by me or my legal representatives or assigns in any country foreign to the United States on a

(54) Title: METHOD AND APPARATUS FOR SECURING A DOOR PISTON TO A DOOR JAMB

(57) Abstract: A door piston to door jamb interface (30) includes an elongated plate (32) having a number of threaded holes (34) therein and a bracket (50) including a base (52) and a transverse support member (54) affixed to the base (52). Base (52) includes a set of holes (60) configured in the same pattern as each subset (36, 38 or 40) of threaded holes (34) of plate (32) whereupon, when set of holes (60) and one subset (36, 38 or 40) of threaded holes (34) are aligned, threaded bolts (44) inserted therethrough can threadedly mate with threaded holes (34) of subset (36, 38 or 40) of threaded holes (34) thereby securing base (52) to plate (32). Bracket (50) also defines a pin receiving hole (58) that is spaced from base (52) and which is configured to receive a pin (80) therethrough for pivotally securing an end of a door piston (78) to support member (54).
